TURF LAYING & LAWN SERVICES

Sometimes your lawn just won't get the results you expect, be it weeds or just the general lawn looks worn out, this is where our new turf laying services comes up trumps. At a very competitive cost our turf will be ready and layed very quickly as apposed to you spending hrs & hrs on trying to achieve the perfect lawn/s.

If you have a patchy/weedy lawn or maybe your dog has destroyed your lawn and you require a new one please get in touch today.

RW landscaping & gardening services offer the following services:

- clear site surface, ready for laying new turf. Removing old stones and garden waste, clearing existing grass areas.
- Soil preparation, rotovating and loosening the soil to allow for a good flat surface for your turf.
- Laying the turf.
- Watering to help turf grow and establish itself.
- Lawn cutting, generally rule of thumb is 4/5 weeks before first cut.

We will lay either patches of lawn to replace dead or poor areas or new full lawns, please ask for more details.

WEEDS CONTROL

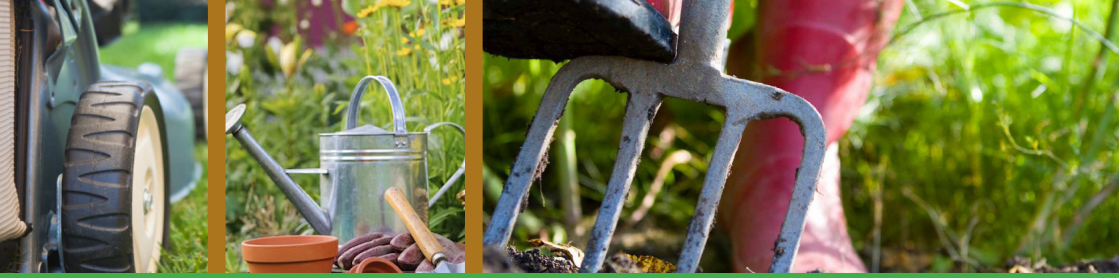

Weeds grow rapidly if not controlled, from common annual weeds to the very invasive species such as the Japanese Knotweed, they can all cause massive problems if not dealt with.

We have a very professional landscaping team, fully trained in the use of pesticides and very knowledgeable in the controlling of weeds. Our weed spraying is completed using only approved chemicals and in conjunction with full COSH Assessments and Risk + Method Statement controls.

So whether it's the regular garden weeds, weeds within grass and paths or even aquatic weeds, we have the complete solution to stop them getting out of control.

RW Landscaping & Gardening offers a specialist weed control service.

Please get in touch with us today to get a quote from our team.

LAWN CARE SERVICES

All lawns need mowing; it is one of the most frequent, and most important, tasks in maintaining a healthy lawn. Getting the cutting height and mowing frequency right can make a huge difference to the ongoing health of the lawn.

R W Landscaping offers a lawn cutting & care service to help you achieve the perfect lawn.

Please get in touch with us today to get a quote from our team.

FENCING & MAINTENANCE & STAINING

Garden fencing comes in a variety of styles and sizes, from overlap to decorative trellis. We also offer different styles, please ask for further information.

Closeboard Fencing – AKA Feather Edge

Closeboard is our strongest of all wooden fence materials, it will last for decades. We would usually construct this onsite from a kit. Each edge is butted edge to edge.

Panel fencing

This style comes in a variety of widths and heights. Attached to vertical stiffeners these panels are secured to 6ft posts.

Picket

Usually 3-4ft high they are attached to 2 horizontal rails. The bottom pales are 2-3 inches from the ground to avoid rot. Great for front perimeters, small gardens or general bordering.

Post & rail fencing

Good for keeping in or something out this fencing is good for agricultural land. Usually erected using a combination of half round post and rails or full post and rails.

Trellis

Used for climbing plants, pergolas this fence is in diamond lattice shapes creating a great climbing source for plants.

Wire Fencing

Attached to wooden posts to create a stretched wire these are good for livestock, dogs or keeping an enclosed space for security.

WALLING & PATH LAYING

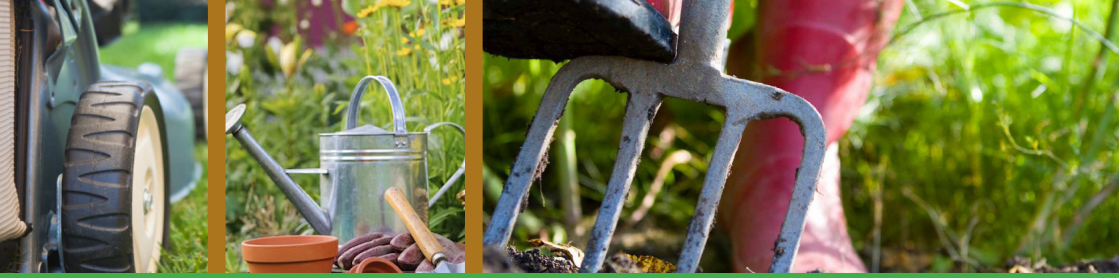

In addition to soft landscaping R W Landscaping Ltd also offer hard landscaping service which includes, decking, patio, steps & brick laying services.

Steps and patios are great for enhancing a gardens features, borders, patios or even a wooden decking can totally transform a garden.

R W have expertise in building mortar walls or laying concrete slabbing for small areas or large driveways.

With close contact with our clients we can produce a fantastic finished product for your patio, wall area.

Pressure washing – we can also pressure wash old mortar or slabs to bring out the best in an old patio, wall or driveway.

WINTER SERVICES/SNOW REMOVAL

As part of our comprehensive grounds maintenance service we have the facility in place to act when the weather turns to wintry conditions.

We use specialist snow plough/gritting vehicles which are able to clear snow roads, car parks, pavements and service roads together with the gritting facility, we can make the areas safer for public use.

Our gritters use only Grade 1 white treatment salt. It is the highest quality grit in use today.

How do we provide this service?

Once we have received an enquiry we will get in touch to arrange a site visit and then discuss your requirements further. At this point we will provide a basic survey before putting a plan of action in place.

Please get in touch with your requirements.

RW landscaping offer a fully insured snow removal service, if you are looking for a snow plough service for winter please get in touch with our team today.

We can take bookings for this winter so your business is free from snow/ice.
